Characteristics of Cross-Jurisdictional Shared Services Arrangements Between Local Health Departments in Wisconsin

> Susan Zahner, DrPH, RN University of Wisconsin – Madison

Wisconsin Public Health Association-Wisconsin Association of Local Health Departments and Boards 2015 Annual Conference May 20, 2015 Wisconsin Dells, WI

Poster presentation slide is available at: <u>http://www.wphrn.org/research-in-progress.html</u>

# **Characteristics of Cross-Jurisdictional Shared Services Arrangements Between Local Health Departments in Wisconsin**

## Susan Zahner DrPH, RN, Kusuma Madamala PhD, MPH, Adam Karlen BS, RN, Tracy Mrochek MPA, RN

#### **Shared Services Agreement**

"A written document that describes, defines, or governs sharing of resources across jurisdictions on an ongoing or as needed basis. Shared resources may include, but are not limited to, organizational functions, staffing, programs, services, capacity, data, information, and technical assistance"

#### **Specific Aims**

- 1. Describe SSA and LHD characteristics, motivations, and expected outcomes
- 2. Measure extent of implementation
- 3. Measure performance in achieving expected outcomes

#### Methods

### Results (cont.)

#### **Number of Partners**

- Mean = 3.46 partners/SSA SD=3.46; Min/max: 2-15 74% with 2 partners
- 77/88 LHD (87.6%)
- 5/13 Tribal (38.5%)
- 7 other organizations

#### Mean Partners by Program

#### Meet requirements

Increase revenue

Enhance quality

Expand capacity

Increase efficiency

Improve outcomes

#### Results

**Primary Program Area** n= 83 SSA

40

#### Length of Term

- Min/max = 4 months to open-ended
- 40% = 12 months
- 33% = not specified

#### Discussion

#### **Practice**/Policy

- SSA are common; current strategy
- Used in a variety of program areas
- Used in large and small LHD
- Number of partners can vary; fit to purpose
- More complete agreements (legal) may be stronger

#### Research

- Primary data collection is challenging
- Longitudinal study of impact

#### Acknowledgements

- the official views of the NIH.
- Kim Whitemore, and Nancy Young.

#### **Motivations for SSA**

#### School of Nursing UNIVERSITY OF WISCONSIN-MADISON

Mean Implementation by Primary Nature of Sharing

Primary Nature of Sharing

#### Limitations

- 50% of LHD directors participated
- Limited tribal participation
- May have missed some SSA meeting definition
- High mean scores for implementation and performance may limit ability to detect relationships in full model
- New/novel measures

#### **Next Steps**

- Further analysis
- Policy and practice recommendations
- Dissemination
